

affordable luxury...

*Vufold sliding, folding door sets are guaranteed for ten years against the occurrence of manufacturing faults apart from the glass units, which are guaranteed for a five year period. All components are solidly made with genuine oak or hardwood surfaces on a solid hardwood core for stability. Our customer promise means that if anything is found to be faulty on delivery, we will exchange it without question. This guarantee is subject to our terms and conditions, care and maintenance instructions, and our homeowners' manual being followed and complied with. Full details can be found on our website or by request.*

**N**ow you can enjoy the luxury of sliding, folding doors at an extremely affordable price. In fact, you can let more light into your home and bring your exterior and interior spaces closer together and pay much less than you might think.

Before Vufold, homeowners had little choice when it came to combining home and garden in one living area. There were sliding patio doors and traditional hinged French doors of course. And you could have sliding, folding doors manufactured as a bespoke product but this was extremely expensive.

When we introduced Vufold sliding, folding doors in 2005, everything changed. For the first time ever, homeowners could buy and fit expanding, versatile and highly secure external doors without paying the earth. In fact, our high quality folding door system combines the detail and workmanship of tailor-made sliding doors, but at off-the-shelf prices.

Better still, our Supreme Range incorporates all of the advanced design features, craftsmanship and high quality materials of the entire Vufold range, but in a lower-priced collection designed for smaller budgets.

# VUFOLD

Our unique magnetic catches hold the doors firmly in place while open

The top hung roller system gives an effortlessly smooth gliding action for easy folding

Top quality aluminium sliding folding hardware pre-machined for easy assembly and installation

All sets have single or double daily access doors, so you don't have to open out all of the doors every time

# VUFOLD®

## Why choose Vufold?

In short, Vufold revolutionised external patio doors. Providing a unique combination of quality, design, technology and affordability, our sliding, folding doors took the market by storm.

Of course it's been copied, but Vufold will always be the original and the best. In fact, no other product available today offers all of these features and benefits in one simple sliding, folding door set.

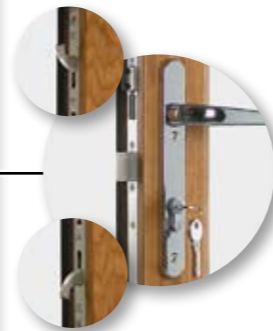

## A unique combination of benefits

Vufold is a unique folding, sliding door system and our customers tell us it's simply the best. Guaranteed for ten years – see our full guarantee overleaf – the range comes in five widths and two timber species: genuine oak or hardwood, with a three coat finish so that you can fit it straight away. We also have a three coat finished white hardwood version. And the oak is also available unfinished if you want to apply your own finish.

Each set includes doors, frame, cill, folding hardware, tracks, locks, handles, frame fixings, lintel fixings and easy-to-follow fitting and assembly instructions.

What's more, virtually everything is pre-engineered making the doors simple to fit and adjust up or down, left or right with a simple screwdriver action. And no other company also supplies you with special drill bits to make fitting easier.

Reversible left or right folding door opening is available from the same set – you don't have to specify when you order. And all sets also have single or double daily access doors, so you can go in and out without having to fully open the set each time. In addition, all of our doors open outwards, so they don't take up any space in your room and maximise your living area.

The three-point locking system has two hook bolts for added security, and the doors can be locked from both inside or out

All sets have sliding bolts at the top and lockable sliding bolts at the bottom for extra security

The aluminium door cill is both lightweight and durable and helps rainwater drain away easily

## Weather out. Heat in.

Vufold sliding, folding door sets are designed to keep the weather out and your heat in. Each set has 44mm doors and 20mm argon-filled double glazed sealed units, using thermally efficient Low E glass and toughened safety glass tested in accordance with British Standards, BSEN 12150 IC2 and BSEN 12600.

They're weather tested to BS6375 Part 1 and include double weather seals to keep draughts out. All sets are document L compliant which means that they're tested to ensure thermal efficiency and lower carbon emissions from the home, achieving a test rating of 1.9 W/m2K. Naturally, we only use timber certified by the Forest Stewardship Council®.

We offer incredible customer service too. All sets are normally in stock, so you can be enjoying your new doors within a couple of weeks.

## Size Guide

(all sets are 2090mm high, outer frame dimension)
